

The Technology Cafe

Join us May 19th!

Join Us for a Workshop on Technology Integration in Early Childhood Classrooms.

Participants will engage in hands on experiences with one another to explore using technology with classroom materials and discuss how using technology has become a new language for children to express themselves through their play. **Participants are encouraged to B.Y.O.D (Bring Your Own Device)!**

*This event is presented by Erin Stanfill, teacher at Burley Elementary School and E. Yeliz Zurawic, teacher at Ravenswood Elementary in partnership with **OECE** and **Erikson Institute's Technology in Early Childhood Center**.*

Register on cps.edu/learninghub with course code 32394 to receive Clock Hours (CPDU's)

Part III: Sharing Learning Through Technology May 19th, 2016

Participants will get hands on support and explore a variety of new preschool friendly apps and tech toys during a social hour. Afterwards, the professional development will explore how digital tools can support documentation of student learning, as well as provide an avenue for students to "go public" with their learning. Participants will also be invited to share examples of projects from their own classrooms.

Missed Parts I & II? No Problem! All teachers and teacher assistants are welcome.
