

Jessica Kubacki, MS

Jessica Kubacki,MS, is the Program Manager for the Technology in Early Childhood (TEC) Center at Erikson Institute. Jessica's work focuses on Universal Design for Learning, Assistive Technology, Informal Learning, Professional Development, and Developmentally Appropriate Practice with technology tools. As an education intern with the TEC Center and Kohl Children's Museum, she designed and piloted an early coding program, *Toying with Tech*, as part of a STEM initiative. Jessica is a certified secondary education teacher and taught Child Development and Culinary for 2 years. Her interest in adaptive cooking and technology led Jessica to work with Northern Suburban Special Education District where she taught in Education and Life Skills for three years, served as a signing assistant for individuals with hearing impairments, and implemented an adaptive cooking curriculum. Jessica holds a MS in Child Development from Erikson Institute and a BS in Family and Consumer Science from Illinois State University.
