

## Osmo Creative Set

Photo courtesy of Osmo

Osmo Creative Set is an add-on to the Base Osmo Gaming System. With the use of erasable markers, children can easily edit their creations. The creative set works with three of the apps (Osmo Newton, Osmo Masterpiece, and Osmo Monster).

**Masterpiece:** Masterpiece turns the iPad into a drawing tool. Children can take a picture of anything with the app. Masterpiece will turn it into an outline. Children can use this outline and the reflector for proportions and a guide. They are able to draw using paper, pencils, marker, etc or the creative set.

**Newton:** Children are able to draw or use real-life objects to prevent falling balls from reaching the bottom of the iPad screen. Place objects in front of the iPad or on the creative board. Osmo's reflector will transfer objects to the screen.

**Monster:** Drawings are brought to animated life and become part of the game. Listen to directions, draw on the creative pad, and watch Mo use the creations in his world.

### What's Included

- 1 Creative Board
- 6 Yoobi Erasable Markers
- 1 Yoobi Erasable Pouch

### Resources Required

- Osmo Gaming System (Available at TEC Center)
- Compatible iPad:
  - iPad 2,3,4
  - iPad Mini/Mini Retina
  - iPad Air
  - iPad Pro 9.7 in
- WiFi 
- Osmo Newton App
- Osmo Masterpiece App
- Osmo Monster App
