Osmo Words is an interactive spelling game. Children can play solo or they can play in versus mode to challenge a friend.

When playing against someone, use only one color of tiles. Osmo gives points to correct guesses. Whoever has the most wins the game.

Play in junior mode to guess the first letter of each word. Additional words can be downloaded or children and families can create their own word albums.

How to play:

1. Try to guess and spell out the word related to the picture on the iPad screen.
2. Place tile cards in front of the iPad. Points are given for correct letters.

What's Included

- 52 Letter Tiles in Blue
- 52 Letter Tiles in Red
